

EnviroMonitor Sensor Compatibility

The EnviroMonitor Node is compatible with all Davis sensors as well as many sensors manufactured by other companies. Use this table to determine which sensors are supported and tested for use with your EnviroMonitor system. Wiring diagrams for each sensor are included in the EnviroMonitor App.

This list will be updated as supported sensors are added. Please check back frequently.

Don't see your sensor on the list? Please call Davis Technical Support at (510) 732-7814 or email to support@davisnet.com to see about getting it added to the list.

*Note: An * in the model number is a placeholder indicating that a model with any number here is supported.*

SENSOR TYPE	MANUFACTURER	MODEL
FLOW METER	McCrometer	FlowCom Register FC100 (100 Gallons)
		FlowCom Register FC100 (100 Liters)
	Seametrics	AG2000-300-11/*-PxX GPM G
